Dear Ms. Mentjes:

Thank you for participating in our Small Business Showcase held in Riverside, California in September 2006. Your presentation "*Get Out of the Comfort Zone and Get into the Goal Zone*" was inspiring and motivating to all those in attendance. The thought-provoking visual exercises you included in your presentation helped our attendees to actually "see" their potential and believe that they could achieve all of their goals. Your passion for wanting to see other people's potential unleashed and to help cultivate that potential was evident not only in your presentation, but in your overall personality.

It was our pleasure to have you speak at our Showcase, and we definitely look forward to including you as a presenter at our future events.

Warmest regards,

Gwen Thibeaux
President and Manager
